

The Beebest Inspire series is ready to go with the same great features and user experience that have made Beebest the global leader in Instant Water Heater industry. Each Beebest Inspire series comes standard with 3 main choice, the E, EP and ESP where featuring its Silent DC Booster Pump that is fully imported from Japan. And to make sure you have the best shower experience, the Beebest Inspire integrates a 5 ways showering choices such as - Super Jet Spray, Massage Spray, Misty Spray, Fine Spray & Combo Spray.

Features

Ultra Slim Design

Suitable for low water pressure

Automatic Flow Switch

Double Relay ELCB

Among the safety systems, Beebest pioneered ELCB (Earth Leakage Circuit Breaker) with Surge Protection

Leak Proof Heater Tank

This leak proof heater tank is made of special engineering grade materials which could withstand high t

High grade anti-rust chrome finishing

High quality anti-rust chrome finishing giving the S8000 series a luxurious, modern and stylish look, her

Electronic Temperature Control

The stylish electronic temperature control knob allows you to select your preferred shower temperature

Variable Pump Speed Selector (S8000EP & S8000ESP)

Enables the pump speed to be adjustable according to the desired pressure required and to be switche

5 way Shower & Colour Matching Showerhead

Colour coordinated showerhead designed to compliment the S8000 series body colour and comes with

S8000

ESP

Silent operation

With the revolutionary silent pump technology, you will enjoy whisper quiet and refreshing shower every

High Efficiency

Thanks to its intelligent system, the silent pump operates with very low power consumption and you enjoy

High Flow Output

The silent booster pump produces a stronger water flow rate for an invigorating shower.

Carbon Brushless System

Unlike conventional pump, the silent pump operates without carbon brush and thereby eliminating the d

Maintenance Free

Unlike conventional pump, the silent pump does not use carbon brush and seal bearing, thus requiring

Superior Lifespan

With its cutting-edge microcontroller and advanced technology, the silent pump has an added advantage

Specification

S8000	E	&	E	S8000E	S
Power Rating	3.7Kw (S8000E & S8000EP)				
4.3Kw (S8000ESP)					
Volt	240 V a.c ~ 50 Hz				

Min. Water Pressure	0.14kg f/cm2 (2psi)
Max. Water Pressure	3.87kg f/cm2 (55 psi)
Water Connection	15 mm(1/2"BSP)
Water Temp. Control	Variable Stepless Electronic Control
Product Dimension	235mm x 375mm x 95mm
Pump Rating	48W 24V d.c. (S8000ESP)
120W a.c. (S8000EP)	
Gross Weight	3.1kg S8000E
4.1kg S8000EP	
3.6kg S8000ESP	
Colour Available	Matt Black
Cream Beige	
Platinum Grey	
Mocha Brown	
Champagne Gold	
Gloss White
